

# SURESAVE<sup>®</sup> OPTIX

## Chemical Dilution

SURESAVE<sup>®</sup>OPTIX, provides an accurate and easy to use chemical dispensing system, ensuring the required cleaning solutions are ideal for the task in hand.

- ✓ Simple
- ✓ Secure
- ✓ Discrete

PATENT PENDING: PCT/GB2017/000150

## Open Container Systems

Everyday dosing systems fail to provide a closed secure container dispensing arrangement to safeguard against unrestricted methods of use.

## Closing the Loop

SURESAVE®OPTIX solves this problem.

Irremovable Cap

Incorporating the Aperture® Irremovable Cap, the system, once fastened cannot be re-opened, detached or removed. The unique one-way valve and pre-use seal safeguards the chemical contents within the container, ensuring safety in transportation and storage.

Eliminates:

- ⊘ Misuse
- ⊘ Waste
- ⊘ Theft

# Irremovable Cap

---

The closed secure system forces the use of a controlled dispensing method, ensuring the safe handling of chemicals.

1 Lowering Cost

2 Safe Handling

3 Health And Safety

4 Colour Coded

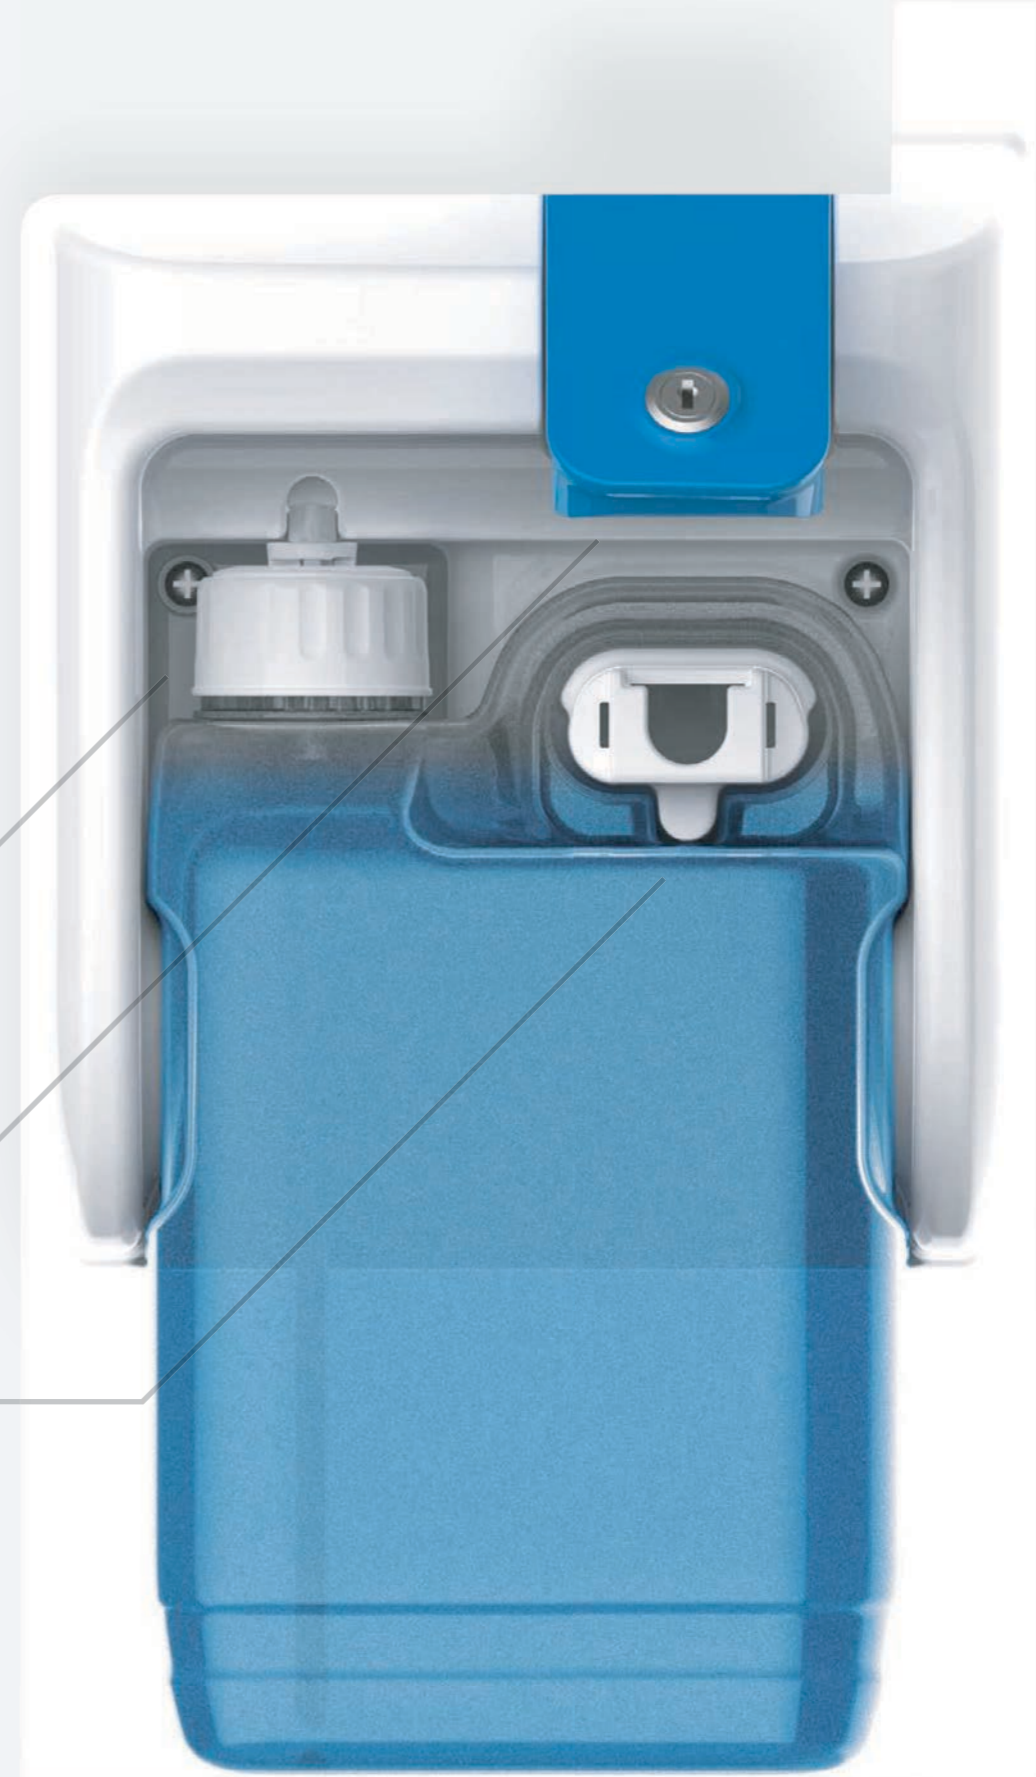

PATENT NO: GB2513840

# Managed Control

The simple low cost solution controls the safe use and cost of chemicals for the consumer, while securing the commercial value of these chemicals for suppliers.

- 1 Irremovable Cap / Container
- 2 Simple Container Level Display
- 3 Handle Shaft Container Lockout
